*Diversity Consultant/  
Father*

### What is the **Alameda County Democratic Central Committee?**

This designated body of elected representatives coordinates the party's activities throughout Alameda County by making endorsements, organizing events, and directing resources to support local, state, and national candidates and causes. **On the March 5, 2024 ballot, registered Democrats in Assembly District 18 will vote for 10 seats on the ACDCC.**

### Why is this race **important?**

The Alameda County Democratic Party makes endorsements for candidates and local propositions that carry the official Democratic Party seal of approval. The Party's endorsement is often the difference between candidates and measures winning and losing. **If you want a better Oakland, it starts with electing a better Alameda County Democratic Central Committee.**

### What do the candidates **care about?**

#### **Real Representation On Real Issues:**

Our Central Committee should be represented by people who are deeply connected to the community. Our Central Committee needs people who focus on solutions to public safety, educational disparities, homelessness, and economic challenges in Alameda County.

#### **Restore Faith In The Process:**

Our Central Committee should prioritize transparency and ethical governance. It's time to restore faith in our political system by electing individuals with a proven record of integrity and accountability.

#### **Rebuild Credibility:**

Our Central Committee should focus on sustainable policies and no longer on political posturing. It's time for a Central Committee that focuses on meaningful issues that serve the needs of our County's communities.
